

AMARON

Amaron's vision and strategy for ESG

During spring 2022, Amaron undertook an ambitious project with the aim of defining our vision and strategy for incorporating Environmental, Social, and Governance factors into our investment process and management of assets. Supported by Grant Thornton Sweden's Head of Sustainability Business Advisory, as well as their Assurance & Reporting lead, we went through the following steps:

Amaron's vision and strategy for ESG

Amaron's Real Estate fund will be launched Q3-Q4 2022, and will incorporate the following ESG focus:

Mission

To deliver long-term sustainable returns by incorporating ESG risks and opportunities into our investment process and management of assets on a daily basis.

Vision

Transforming Real Estate assets to a greener profile leads to better returns

Vision

Transforming Real Estate assets to a greener profile leads to better returns

Values

ESG incorporated into our investment management delivers better returns, minimises risk, and highlights opportunities. Business ethics incorporated into all relationships with partners, suppliers, investors, and employees.
